

Product Requirement Document (PRD)

HR Recruitment Module (Phase 1)

Product Name

Recruitment Management System (RMS)

Version

V1.0

Objective

To build a simple recruitment management system that helps HR teams manage the hiring process efficiently with one AI-powered Resume Screening Agent while keeping the remaining processes manual.

Problem Statement

Current recruitment processes are managed using Excel sheets, emails, and multiple portals, resulting in delayed hiring, manual screening effort, scattered candidate data, lack of recruitment tracking, and increased time-to-hire.

Proposed Solution

Develop an HR Recruitment Module that manages job requisitions, stores candidate information, uses one AI agent for resume screening, tracks interviews and offers, and manages onboarding activities.

Scope

In Scope:

- Job Requisition Management
- Job Posting
- Candidate Management
- Resume Screening Agent (AI)
- Interview Management
- Offer Management
- Onboarding

User Roles

HR Executive: Create jobs, manage candidates, schedule interviews, generate offers.

Hiring Manager: Approve requisitions, review shortlisted candidates, submit interview feedback.

Admin: Manage configurations, reports, users, and permissions.

Recruitment Workflow

1. Hiring Request Raised
2. Manager Approval
3. Job Posting
4. Candidate Applications Received
5. AI Resume Screening
6. HR Reviews Shortlisted Candidates
7. Interview Scheduling
8. Interview Feedback
9. Final Selection
10. Offer Letter
11. Document Collection
12. Employee Joining

Modules

- Job Requisition Management
- Candidate Management
- Resume Screening Agent
- Interview Management
- Offer Management
- Onboarding

Database Tables

- tbl_job_requisition
- tbl_candidate
- tbl_resume
- tbl_interview
- tbl_feedback
- tbl_offer

- tbl_employee
- tbl_users

Dashboard Metrics

- Total Open Positions
- Total Applications
- Shortlisted Candidates
- Interviews Scheduled
- Offers Released
- Employees Joined
- Time to Hire

Success Metrics

- Reduce manual screening by 70%
- Reduce hiring time by 40%
- Centralize candidate information
- Improve recruitment tracking
- Faster shortlisting process

Future Enhancements (Phase 2)

- WhatsApp Integration
- Email Automation
- Calendar Integration
- AI Interview Summary
- Candidate Chatbot
- Voice Recruiter Agent
- Recruitment Analytics Dashboard
